Summer 2015

Hooked on Safety

Practicing a consistent technique of quartering upstream and getting a natural drift contributes to success in fly fishing. In much the same way, working safely is a function of consistently performing all the steps to safe operations to yield the catch of another day worked safely. Congratulations to the following rigs for consistent safety performance.

YEARS WITHOUT A LOST-TIME INCIDENT

18 YEARS NOBLE MAX SMITH

13 YEARS NOBLE HOMER FERRINGTON
NOBLE DAVID TINSLEY
